

Comprehensive Training Program in Palliative and End-of-Life Care

SPIRITUALITY QUESTIONNAIRE-EXERCISE FOR HEALTHCARE PROFESSIONALS (PLEASE PRINT)

This questionnaire has two purposes:

- One, to help health care professionals (physicians, nurses, social workers, etc.) begin to think about psycho-social-spiritual issues relating to illness, death and dying.
- Two, in doing so, to help them begin to think about and gain insight and self-awareness into how they deal with these issues personally, which will effect how they deal with these issues with chronically and terminally ill persons and their families.

This questionnaire is CONFIDENTIAL. YOUR NAME IS NOT REQUESTED AND SHOULD NOT BE PLACE ON IT. RESPONSES TO THIS QUESTIONNAIRE WILL NOT BE IDENTIFIED AS BEING FROM ANY PARTICULAR PERSON. Issues relating to illness, death, dying and spirituality are sensitive ones. If there are any particular questions you find to be uncomfortable about responding to, do not feel compelled to answer them.

Which three events / experiences have shaped your life the most?

1)

2)

3)

What are the three things which motivate you the most?

1)

2)

3)
